SHR-P

ACKNOWLEDGEMENTS

The author wishes to express his highest sense of gratitude to Dr. B.B. Tripathi, F. Inst. P. (London) for his painstaking guidance, fruitful discussions and constant encouragement without which the present work would have not been possible.

The author is deeply indebted to Dr. H.C. Gupta of the Physics Department, K.M. College, Delhi University, for his constant help and stimulating discussions during the course of investigations.

The author is very much grateful to Prof. M.S. Sodha and Prof. B. Dayal (Meerut University) for their kind interest and useful comments at various stages and to Prof. K.L. Chopra, Prof. C.L. Mehta and Prof. A.K. Ghatak, as the successive Heads of the Physics Department, I.I.T., Delhi for providing the necessary facilities for the work. The keen interest taken by Dr. T.C. Goel, Dr. L.M. Tiwari and Dr. M.K. Gupta (Aligarh) are also gratefully acknowledged.

It is a great pleasure to acknowledge the friendly encouragement and help rendered by my colleagues and friends, in particular, Dr. G. Bose, Dr. (Miss) S. Jogi, Mr. Arun Kumar, Dr. S.C. Kaushik, Dr. R.P. Sharma and Mr. S. Bhatnagar. Thanks are also due to the authorities of Computer Centre, I.I.T., Delhi for providing the computational facilities. The hard work put in by Mr. D.R. Joshi for the neat typing of the manuscript and Mr. N.S. Gupta for drawing the figures are acknowledged with thanks.

Shradha Nand
